

Fresh Flavours

Alain Milliat's juices, purées, nectars and jams reflect the authentic and natural taste of raw fruits. The Summer Pear Nectar, for example, has a delicious pulpy texture. This perfect teatime treat is made from the same pear variety used in making high quality pear brandies. Milliat's white grape juice is also made purely from the Chardonnay grape, which was harvested early to obtain a good balance of flavours and acidity.

Alain Milliat products are available at Culina.

for the sweet-toothed

French classic desserts just got a new twist with Antoinette's new range of cakes. The collection includes whole cakes such as the Charlotte, a bold, striking red dessert wrapped in vanilla mousse, finger sponge with strawberry coulis, yuzu strawberry jelly and fluffy vanilla marshmallows. The Désir is equally enticing too, with its piquant blend of chestnut mousse, chestnut cake, candied chestnut macerated in dark rum, vanilla Chantilly, cassis coulis and almond crumble.

Antoinette's whole cakes are available at all three Antoinette outlets, prices vary.
